

# Pick a Path

If you colour the numbers that are answers to the 3x table, you'll colour a path that takes you from one point of the triangle to another.

Write the answer to each equation and each time you write a T cross one off the T-bag.

$4 \times 3 = \dots\dots\dots$

$1 \times 3 = \dots\dots\dots$

$6 \times 3 = \dots\dots\dots$

$3 \times 3 = \dots\dots\dots$

$5 \times 3 = \dots\dots\dots$

$2 \times 3 = \dots\dots\dots$

$9 \times 3 = \dots\dots\dots$

$8 \times 3 = \dots\dots\dots$

$10 \times 3 = \dots\dots\dots$

$12 \times 3 = \dots\dots\dots$

$11 \times 3 = \dots\dots\dots$

$7 \times 3 = \dots\dots\dots$
